Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days.

Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Aspects

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. Negative values suggest more stressful or challenging influences while positive numbers show more flowing, easy energy.

Natal Chart Report

Birth Chart

This birth chart report shows the positions of the planets for Nicolas Criticos.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Pisces

As the twelfth and last sign of the zodiac, Pisces contains within itself a little experience of all the signs. This gives Pisces Suns the ability to identify with people from all walks of life--from all backgrounds--in some way. These individuals are not only changeable and adaptable, they have open minds and tremendous understanding. But Pisces itself is often misunderstood. Pisces Suns may spend a good portion of their lives yearning for

understanding, and the other part in a state of divine discontent. Suffering is sometimes glamorized in the Piscean world.

Sun in Pisces people are frequently pegged as wishy-washy, but this is all a matter of opinion. What you will find behind a vaguely directionless, spacey manner is a deep person with real dreams. Their dreams are more than getting that picket fence or making it up the corporate ladder. Pisces are tuned in to a higher purpose, and their dreams transcend the individual. A deep love for humanity and compassion that knows no bounds are found with this placement of the Sun.

Pisceans are *not* known to be cutthroat business types, nor are they given to throwing themselves out into the world aggressively. But make no mistake, Pisces can be extraordinarily successful when given a chance to express themselves. The arts, marketing, music, teaching, drama, and healing arts are all fields in which Pisces can find expression. Their imagination, attunement to humanity, and remarkable intuition endow them with enviable gifts of insight and creativity.

Pisces is a sensitive sign--both sensitive to criticism and sensitive to others' feelings. Easily touched by human suffering, at least in theory, Pisces wouldn't hurt a fly. They believe in people, are deeply hurt by compassionless human behavior, and have difficulty saying no. Harsh realities are avoided either through escapist behavior or self-delusion, but every now and again, reality does raise its ugly head and hits Pisces over the head--a sad time indeed! Pisces retreats into their own world, self-pitying and giving pep talks to themselves ("I will never trust again!"). Rest assured, though, that these periods are short-lived and useful. Pisces derive energy from their (generally short) bouts of self-pity. They come back stronger, with a spring in their step, ready to face the world again, and just as, if not more, compassionate and trusting as they were before.

Some might even wonder if Pisces finds pleasure in suffering. Sometimes this is the case, but most of the time, Pisces pulls a lot of creative energy from sadness. Pisces is the poet or artist with angst, although this trait is often more apparent with Moon in Pisces.

Some find Pisces' tendency to be late for appointments, sometimes spaced-out behavior, and absent-mindedness amount to irresponsibility. Pisces would be shocked to know this, however. Who me? Pisces wonders. Irresponsible? Pisces Suns do care--their love knows no bounds--but their retreats from ordinary life (whether they are as simple as daydreams or actual departures) that they so seem to need now and again are not always understandable to no-nonsense signs, such as Virgo or Aries. Many Pisces seem almost allergic to things like shopping lists, maps, directions, and instructions, and for some brave souls, even watches -- they prefer to feel their way through life than to follow some plan. We find plenty of artists, poets, and musicians with Sun (and other personal planets) in Pisces.

Short description:

He is compassionate and sentimental. He likes isolated occupations: administration, archives, history. Spirit of self-sacrifice.

Potential issues: a tendency to be led astray, lack of experience, or inability to apply experience practically. Lethargy, over-sensitivity, and emotionalism.

Pisces with ascendant Gemini

Sun in IX: The Sun is in the ninth house

You have a deep need to understand the world around you. You have high ideals and your eye on what's on the horizon. As you so frequently look ahead, you can seem quite restless. You're proud of your knowledge, mind, and morals. Advice: Avoid self-righteousness in your enthusiasm to share your knowledge. At your best, you are a tolerant, adventurous, and curious person, and you want to see the best in people--and in life itself.

Key points:

He takes an interest in different cultures or has a spiritual side. He is enthusiastic and excellent at promotion or marketing. He believes that things will work out and in spiritual protection.

-257 Opposition between the Sun and Moon

You have an internal struggle between your needs and wants, sometimes leading to indecision or a lack of focus.

Your ability to be objective is both an asset and a liability, simply because when you decide on one route to a goal, another direction pulls you simultaneously. Something tugs at you, and you begin to question your stance. "But what if..." and "on the other hand..." are statements that can plague you. You are always aware of the opposing point of view and the other side of the coin.

Short description: He is strong-willed and very sensitive. Relationships and life experiences help him learn much about himself. Conflicts and drama in close connections are possible, but this subsides with time. He frequently feels conflicted between internal needs and conscious or external goals and drives. His private and public personalities can differ greatly, mainly because his inner needs and outer goals are very often different.

-93 Square between the Sun and Ascendant

He may face conflicts in life due to a projection of character that does not match what is on the inside. Misrepresentation of the self can be frequent. He must strive to understand how others perceive him and work on presenting a more accurate persona to the world, or he will rub people the wrong way or feel unrecognized and misunderstood.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person

expresses themselves when at home, at ease, and comfortable.

The Moon is in Virgo

Lunar Virgos find security in the little things in life. They feel most content when they've straightened out all the details of everyday life. Many enjoy running errands, paying bills, and balancing the books. They take care of these things happily, although some won't let on. In fact, many Lunar Virgos are quite practiced at nagging! As long as they are appreciated, however, these people will help you take care of your life, too. They are at their best when they feel useful and needed. If somebody needs help, they are generally the first to jump up and take on the task.

Some people with Virgo Moons are accused of being underachievers. While it may be true that Lunar Virgos can lack self-confidence, many are--quite simply--content with living "regular," unassuming lives. They appreciate simplicity and are often most comfortable when they're not getting too much attention from the world at large.

Lunar Virgos are easily overwhelmed by pressure and stress. They worry incessantly when there is too much to think about, and they know their limits. Arguably the worst situation for a Lunar Virgo to endure is without a steady routine or a satisfying job. They need to feel useful, and they best express this by helping others. They need something to call their own and the space to do what they want to do. The unhappy Lunar Virgos are fussy and complaining sorts. They are victims of routine and freak out when their plans are not followed. They are restless and nervous, and can't seem to see the big picture. Probably the best remedy for them is a job or hobby in which they can express their deep need to analyze, attend to details, and micromanage.

These people express their affection for the people they care about in non-showy and practical ways. They can be a little stiff when it comes to open, gushy displays of affection. Lunar Virgos are often shy with new people. However, when they are comfortable, they are anything but shy--they're talkative, interested, and interesting.

More often than not, others can count on Moon-in-Virgo people. They are reliable and trustworthy. Above all else, Lunar Virgos are practical. Others turn to them for help and advice. In relationships, Lunar Virgos can be self-effacing and kind. Some are quite shy in love and easily intimidated. Some aren't comfortable with their sexuality, but they aim to please nonetheless. The sign of Virgo is very body-aware, in general. If this awareness combines with a lack of self-confidence, Lunar Virgos can be too aware of the parts that make up the whole. This can lead to a tendency to be intensely self-critical. Once Lunar Virgos learn to come out of their shell, however, they can be earthy partners with a lot to give.

Some of the most skeptical people are Lunar Virgos. They can't help but poke holes when faced with others' blind faith. Their criticism can be maddening, and their insistence on seeing the practical in anything emotional can be challenging, especially if you are the dreamy type. Virgo curiosity shows up big time with this position of the Moon. To some, it can be confusing. Lunar Virgos seem very interested in others' problems, for example, but

can come across as cool and even unsympathetic. Their advice can seem hard to more sensitive folk, yet Lunar Virgos can be surprisingly delicate when faced with others' criticism.

Virgo Moon people are busy and quietly happy when they have their lives under control. They aim for a simple existence and are often quite content with very little. Many are early risers, ready to take on the day with enthusiasm. They scurry around, keeping busy and managing their life quietly and expertly. As long as their personal world is manageable, Lunar Virgos can be a delight to be around. They're fountains of knowledge, and they can be excellent with advice and insight. They're also a wonderful voice of reason.

Short description:

He has a very good memory. Scientific or medical studies are preferred above all others. He is humble and moderate, calm and reserved. Emotional discipline. He is willing to help, devoted and gentle.

Potential issues: servile nature, frequent changes of occupation, quick to become annoyed, upset, and worried. He is too quick to brush off opportunities.

Moon in III: The Moon is in the third house

Key traits: Highly imaginative, but may have difficulty concentrating. He fantasizes frequently. Mental diversity, quick to learn, observant, enjoys studies, may be fidgety, move around a lot, or travel frequently.

You are very responsive, communicative, and curious. You can have a talent for imitating others and/or picking up languages. You might either intellectualize your emotions rather than truly feel them and deal with them, or you communicate with excessive emotion. Some of you may do both at different times and, as you mature and develop, you learn to find a balance.

Your opinions and ideas change often, and you might sometimes adopt others' points of view and express their ideas as if they were your own. This is not because you are a copycat but because you sometimes fail to own your own thoughts and are very sensitive to others' opinions. You're simply very quick to pick things up.

Often nervous and restless, you require frequent changes of scenery, even if the movement or travel takes place locally. You can have friends that are like siblings, and you're very attached to connections made in childhood. You make an excellent teacher and interesting conversationalist.

29 Trine between the Moon and Neptune

Positive aspect: He is kind and sympathetic, with a strongly compassionate nature. When in love, he is usually very devoted. In fact, he is devoted by nature, not only in matters of the heart.

There is an unmistakably compassionate and understanding side to his nature. He has a natural affinity to music. While everyone enjoys music, people with the Moon in harmonious aspect to Neptune respond to music as a vehicle to heal, relax, and uplift the soul.

Naturally perceptive, without even trying, he tunes into the feelings of others and the mood of his surroundings. There is a distinct emotional need to escape into the world of imagination and to withdraw from others at times when he needs to re-center himself, largely because he tends to "take in" a lot of mixed energies from his surroundings.

Strong and sudden feelings and hunches can overcome him. More often than not, his intuition is correct, although his imagination is also powerful, and he can read too much into a situation as a result.

Some laziness is associated with this position, which stems from a natural timidity and sensitivity apparent from youth. He may have been labeled "shy" in youth, and family members or friends may have jumped in to "save" him from situations that required boldness or aggressiveness. Thus, passivity was accepted, and, as an adult, he may be less experienced than most with reaching out or going after what he wants.

-53 Square between the Moon and Ascendant

He can be unhappily influenced by the family or childhood, or otherwise feel rather insecure about new beginnings and new situations. He may always seek more love, appreciation, and feedback.

He is susceptible, perhaps with some superficial sensitivity, and can sometimes be irascible, changeable, inconstant, and moody. However, he is usually highly intelligent, observant, and adaptable, and very often misunderstood, projecting the wrong image more often than is comfortable.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Aries

He makes quick decisions, may streamline learning, can be direct and straightforward in speech, possessing an innocent charm, and can easily motivate others with his enthusiasm. Usually loves a heated dispute. Lively mind that quickly understands a given situation. He is very resourceful and capable. May prefer to jump into a decision and may not have much patience with pretense.

Mercury in X: Mercury is in the tenth house

His home and comfort are the most important things to him. He is intelligent and speaks easily and cogently. May easily keep many irons in the fire and follows through his activities. Could move house a lot for business reasons.

You are good with language, and generally use this talent in your profession. You can have an authoritative air about you, or you are talented at communicating and negotiating with those in authority. You might have more than one job going at once much of the time, you could change your career directions frequently, or you could be attracted to jobs that keep you on the move. You require frequent changes of setting or activities in order to remain stimulated and challenged. You are skilled at bringing fresh energy to your conversations or to your job, perhaps because you need the stimulation.

190 Sextile between Mercury - Venus

He looks on the bright side of life. He is gay, agreeable, optimistic, sociable. He enjoys speaking and writing, and he does both with charm and artistry. His intellectual pleasures are very much influenced by his feelings. He is amorous and sensual. He likes beauty, the Arts, travelling, frequent changes of scenery. Aims always for diplomacy. Very charming.

661 Conjunction between Mercury - Mars

He likes discussions, debates, polemic. He has good judgment and can be very determined. He is a worker and has lots of energy. He has a lively intelligence and usually goes to the heart of things. He is enthusiastic, incisive, and energetic in thought and speech.

187 Sextile between Mercury - Uranus

He is perspicacious, ingenious. He binds intelligence and originality together with genius. He likes literature, especially fiction. He is spontaneous in his friendships and knows how to turn situations around positively.

80 Trine between Mercury - Pluto

He has a great sense of observation and quickly grasps and sizes up the situation. He is crafty, subtle, and perceptive.

-142 Opposition between Mercury - Lilith

Can be provocative in speech or communications, often challenging and contradicting, and seeing the flaws of a situation. This might be someone who holds back his sensuality.

198 Conjunction between Mercury - Midheaven

He likes to have his own ideas about things, to form an opinion and think over the problems it poses. He is an intellectual.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Aquarius

Venus in Aquarius people try to impress you with their open-minded, future-thinking spirit. They want you to see them as unique, rebellious, and a little provocative. They are attractive when they are acting a little aloof. They want you to acknowledge and appreciate that they don't follow the beaten track in matters of the heart. Venus in Aquarius people are attracted to unusual or unconventional relationships. They don't want to follow all the rules, although they may make quite a few of their own. They can appear quite standoffish at times, and are threatened by restrictions of any kind. Emotional types may be put off by their detached manner in love. Venus in Aquarius wants you to love them for their intellect, and to admire their visions. They value lovers who are also good friends, and they avoid emotional displays or confrontations like the plague. Venus in Aquarius will delight in shocking you with their unusual ways and their forward-looking thinking.

Pleasing Venus in Aquarius involves letting them know just how interesting they are. Put up with their occasional need to act superior on an intellectual level -- they are very proud of their unique ideas and visions. Dream along with them, and don't fence them in. They need space and will happily return the favor, giving you lots of room to breathe and to be yourself.

Venus in VIII: Venus is in the eighth house

Not frightened by the unknown. Sometimes this position means he has a peaceful and happy or natural end of life. Possible inheritance.

Intensity is what you seek in your love relationships, so that casual encounters are not necessarily your game. You are easily bored with mechanical interactions between partners, and might prefer drama in your relationships to anything mundane or superficial. However, you also fear being vulnerable in love, and, in youth, you may control your emotions in love. Fears of being betrayed may be at the heart of your somewhat jealous and possessive nature in love. When you give yourself over to love, you love wholeheartedly and expect all-consuming, total devotion and attention in return. You find passion a healing force in your life. Your charm runs deep--just below the surface. You are attracted to all that is taboo, hidden, forbidden, and find beauty in the broken, disenchanted, obsessed, and passionate. In some cases, people with this position might make a business out of love, romance, and eroticism. There is an intensity about you that others pick up readily. Either they run or they are completely intrigued!

366 Sextile between Venus - Mars

He is amorous, not a peaceful and calm lover but a passionate one with a strong temperament. He is demonstrative in love, and usually fully enjoys healthy pleasures and life to the full.

360 Conjunction between Venus - Uranus

Independent in love. His love life is rich, but possibly with passing love affairs. He can tire quickly and can be scared of losing his liberty. Traditional marriage may not be for him. He has that little something that attracts others. He likes amorous adventures or unusual pastimes, he is romantic, although a little detached or unpredictable. He is the eternal lover and is more likely to break something off than live untruly. He likes art, anything new.

The ability to get along with--and accept--people from all walks of life as friends is strong with this position. He can readily see through insincerity in others. In relationships, tolerance is the most important "ingredient" to him. His sexual preferences can be somewhat unconventional, and he may not be happy with a partner who tries to limit his sexual expression. He is usually quite capable of maintaining relationships that require a great deal of freedom and tolerance, such as long-distance romances or set-ups in which partners are unable to see each other consistently. His style in love can be somewhat free and breezy, and possibly noncommittal. He quite naturally accepts the idea that his partner might need some personal space and freedom.

157 Conjunction between Venus - Neptune

His professional life can be creative or inconstant. He has a taste for the Arts, can be a dreamer, and may be easily influenced and romantic. He is emotional and very sensitive.

Romantic, creative, gentle, and adaptable, you naturally express the finer qualities of mysterious and dreamy Neptune in your love relationships. Your imagination is rich and your fantasy world well-developed. You are turned off by rudeness and crudeness, and are drawn to beauty in its many forms. You are very giving and generous, but may be a little on the submissive side, or sometimes downright lazy, failing to take the initiative when situations call for it.

129 Sextile between Venus - Pluto

His emotional and sex life can be powerful and rich. He lives out truly passionate love affairs. Extremely resourceful, he is also excellent at determining the worth or value of material things. He can help others to discover their own worth as well. He is naturally attracted to relationships that transform him, that are growing and evolving, and that are intense. He can use his strong intuition and understanding of others for good or for bad, and this depends largely on other aspects in the chart. He can be highly devoted and passionate to the things (and people) he loves. He can be quite persuasive.

45 Trine between Venus - Lilith

This aspect suggests charm, beauty, attracting others by his magnetism. He is intense in love. Feelings are complicated. There can be brooding. However, he is inclined to embrace, accept, and understand the darker side of his nature.

85 Sextile between Venus - Midheaven

He has good taste, an affectionate nature, his love is warm and deep, based on intellectual understanding and common tastes. His friends are useful in furthering his career. Good reputation in the professional world. Well-liked for what he does for a living.

Mars

Mars represents the desire for action and physical energy.

Mars is in Aries

This is a very impulsive position of Mars. The first instinct for Mars in Aries people is to take action. Quick flare-ups characterize the Mars in Aries character, but their anger usually doesn't last for too long. In fact, these people generally don't live in the past, and are not given to holding grudges or feeling resentful. Generally, their temper comes quickly, and they deal with anger on issues right away--with this kind of character, there is little room for festering. When Mars in Aries people listen to their instincts, they generally get things done, and they make fast and (usually) decent decisions. They don't naturally stop to smell the roses--or consider others' point of view--when they are deliberating over what to do next. In fact, "deliberation" works at lightning speed for these natives, so they could hardly be called deliberate. Spontaneity is one of their assets; as are simplicity, purity of action, and innovation.

Mars in Aries natives are often a step ahead of the rest of us. A life that is too predictable makes them antsy. Mars in Aries people enjoy starting fresh--new ideas, pioneering action, and fresh projects make them happiest. They generally enjoy challenges. Relationships with these natives can be exciting, but keeping up with them can be difficult. They are given to impulsive action, and they are not known for sticking things through. Although their physical energy is great, they can lose their initial enthusiasm quickly. Mars in Aries natives are easily irritated by indirectness from others. They expect others to say things straight--no beating around the bush. They easily become impatient with convoluted plans, or with people they consider to be slow to action. Most people with this position of Mars have a childlike quality to them. Sometimes they're downright rude and impatient, but with Mars in Aries natives, you generally know what they're after. Unless Mars is afflicted in the chart, you can also pretty much trust that they don't have hidden agendas.

Mars in X: Mars is in the tenth house

He devotes lots of energy to work, and this can continue well into old age. He is a dedicated worker, not afraid of getting down to it. He improves upon his living conditions, rising above his station at birth. He can complete long-term tasks successfully and with finesse. He is easily excitable, often quick to become upset and in the same vein criticizes even himself.

56 Sextile between Mars - Uranus

He possesses exceptional energy. He is impulsive but bold. He may take on risky enterprises for the good of the community. He will often pour tremendous energy into an endeavor. He has a great need for his independence, insisting on his freedom of action. Very open to new methods and different ways of doing things. Progressive and courageous. An innovator.

88 Trine between Mars - Pluto

He is ambitious with a great capacity for work and effort, self-confidence, and determination. Will stick it out to the end with his plans.

The Houses

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Pisces with ascendant Gemini

Ascendant is Gemini

Those born with Gemini rising see the world as a place to learn. They are curious about the people around them. Sounds similar to Sagittarius rising? Well it is, but there are some important differences. While Sagittarius seeks to expand their mental and physical

horizons in a broad sense, Gemini is mostly interested in moving about in their social circles. These are people who love to ask questions, to move around freely, and to mingle. Definitely restless and often quick in physical expression, natives of the Gemini Ascendant exude an air of impatience even if they don't mean it. In fact, there is a cleverness to Gemini Ascendants that can intimidate some, especially sensitive folk. Their facility with words can be a wonderful asset, although sometimes Gemini rising individuals identify too much with their mental agility and forget, in their personal interactions and communications, to nurture the people around them. A certain lack of warmth in presentation can be the result, and although this style is generally a facade, it is not immediately apparent to most. People with, for example, predominant Water signs may feel a little ill at ease with Gemini rising people (that is, before they get to know them more personally), while strong Air types more fully appreciate the fun and cleverness of these individuals.

I have found two styles of presentation most common with Gemini rising people. One style is bubbly, changeable, talkative, and a little quirky. These natives are interesting and fun. They constantly explain things, whether it's their own behavior and opinion or those of the world around them. Another distinct "style" is a rather cool and intellectual demeanor. These natives are often quite witty and clever, but they present themselves in a less cheerful and changeable way than the first group. Their observations are sharp and the overall manner is a tad brusque. No matter the style, Gemini rising natives are given to analysis and making sense of their world. Their powers of observation are well-developed, they are mentally active (more often than not, their minds are racing!), and they almost always have something bright or witty to say. It is easy for individuals with this position to get sidetracked, as their curiosity is large, their minds are quick, and their attention spans rather short! As children, natives born with a Gemini Ascendant are often labeled as the intellectual, inquisitive, and perhaps odd child. Many feel their upbringing lacked some warmth. In one-to-one relationships, Gemini rising people often seek a certain amount of personal freedom and space. They enjoy intellectual debates and exchanging ideas. Although they often demand a fair amount of freedom, they are often just as willing to give their partners room to breathe.
